Subject: RE: ESD by Tuesday cob, small boat oversight deliberative

Thanks Sean. We could have someone participate in their tailgate health and safety meeting when they start up the smaller survey vessel and personal watercraft work, if you would like us to.

Howard

Hi Howard I got your voicemail I think we stand down on small boat oversight because I just don't see anyway to figure it out. However Davis I would suggest we need to make it clear that they will have to provide a second boat for all of their field operations because we find it unacceptable that they haven't provided room for oversight staff

Scott on the explanation of significant differences can I get a draft as is clean -close of business today that I can use for a TCT and tribal calls tomorrow? Thank you
